

Danvers Schools **Green Team** **Recycling Pledge**

I, _____, pledge to do my part to recycle at home and at school. I also pledge to reduce waste and to reuse items. I know that the Earth's resources are limited, and that by recycling, we make sure there will be a future where there will be trees, clean air, and clean water. I also pledge to help my family and friends recycle as much as they can, and to tell people about how important it is to recycle.

Dear Parents—In case you haven't heard, Danvers Schools are Recycling!!! Your children are doing a great job recycling paper and plastic in the classroom and bottles, cans, plastic bowls and plastic juice cups in the cafeteria! They are even pouring off their liquids. We are so very proud of our students. Please encourage your children to recycle at school, and help them to set up a recycling center in your home if you don't already have one. You can visit the Town of Danvers Public Works website for information on what can be recycled curbside. Be sure to attend our Earth Day Recycling Weekend in the Spring and our America Recycles Weekend in the fall to recycle items that are "outside of the bin". Thank you for your support!
